# SAFETY DATA SHEET

#### WATTYL ESTAPOL SPEED SATIN **CLEAR**

888493

### Section 1. Identification

**Product name** : WATTYL ESTAPOL SPEED SATIN

**CLEAR** 

**Product type** : Liquid.

Relevant identified uses of the substance or mixture and uses advised against

**Manufacturer** : VALSPAR PAINT (NZ) LIMITED

4-14 Patiki Road.

Avondale, Auckland, NZ 1026

**Emergency telephone** 

number (with hours

+(64)98010034 (Available 24 hrs/ 7 days)

of operation)

: sds@sherwin.com

e-mail address of person responsible

for this SDS

# Section 2. Hazards identification

**HSNO Classification** : Not classified.

This material is not classified as hazardous according to criteria in the Hazardous Substances (Minimum Degrees of Hazard) Regulations 2001.

This material is not classified as DANGEROUS GOODS according to criteria in New Zealand Standard 5433:2012 Transport of Dangerous Goods on Land.

#### **GHS label elements**

Signal word : None.

**Hazard statements** No known significant effects or critical hazards.

**Precautionary statements** 

: Read label before use. Keep out of reach of children. If medical advice is needed: **Prevention** 

Have product container or label at hand.

Response : Not applicable. : Not applicable. **Storage Disposal** : Not applicable.

result in classification

Other hazards which do not : Please refer to the SDS for additional information. Keep out of reach of children.

## Section 3. Composition/information on ingredients

Substance/mixture : Mixture Other means of

identification

: Not available.

**CAS** number/other identifiers

**Product code** : 888493

Ingredient name	% (w/w)	CAS number
Amorphous Precipitated Silica	2.5	-
Trimethylpentanediol Isobutyrate	2.5	25265-77-4
Propylene Glycol	2.4	57-55-6

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Version : 5 Date of issue/Date of revision : 04, August, 2021 SHW-A4-AP-HSN44-NZ

### Section 4. First aid measures

#### **Description of necessary first aid measures**

\_\_\_\_

**Inhalation** : Remove victim to fresh air and keep at rest in a position comfortable for breathing.

Get medical attention if symptoms occur.

Ingestion : Wash out mouth with water. If material has been swallowed and the exposed

person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms

occur.

Skin contact : Flush contaminated skin with plenty of water. Remove contaminated clothing and

shoes. Get medical attention if symptoms occur.

**Eye contact**: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower

eyelids. Check for and remove any contact lenses. Get medical attention if irritation

occurs.

### Most important symptoms/effects, acute and delayed

#### Potential acute health effects

Inhalation: No known significant effects or critical hazards.Ingestion: No known significant effects or critical hazards.Skin contact: No known significant effects or critical hazards.Eye contact: No known significant effects or critical hazards.

#### Over-exposure signs/symptoms

Inhalation: No specific data.Ingestion: No specific data.Skin: No specific data.Eyes: No specific data.

#### Indication of immediate medical attention and special treatment needed, if necessary

**Specific treatments**: Not available.

Notes to physician : No specific treatment. Treat symptomatically. Contact poison treatment specialist

immediately if large quantities have been ingested or inhaled.

Protection of first-aiders : No action shall be taken involving any personal risk or without suitable training.

See toxicological information (Section 11)

## Section 5. Firefighting measures

#### **Extinguishing media**

**Suitable**: Use an extinguishing agent suitable for the surrounding fire.

Not suitable : None known.

Specific hazards arising from the chemical

: In a fire or if heated, a pressure increase will occur and the container may burst.

Hazardous thermal decomposition products

: Decomposition products may include the following materials:

carbon dioxide carbon monoxide metal oxide/oxides

Hazchem code

: Not available.

Special precautions for firefighters : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without

suitable training.

Special protective equipment for fire-fighters

: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

Version : 5 Date of issue/Date of revision : 04, August, 2021

### Section 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

: No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Put on appropriate personal protective equipment (see Section 8).

**Environmental precautions** 

Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

#### Methods and material for containment and cleaning up

**Small spill** 

: Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

Large spill

Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with noncombustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

## Section 7. Handling and storage

**Precautions for safe** handling

Put on appropriate personal protective equipment (see Section 8). Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas.

Conditions for safe storage, including any incompatibilities

: Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

## Section 8. Exposure controls/personal protection

#### **Control parameters**

Occupational exposure limits

Ingredient name	Exposure limits
Amorphous Precipitated Silica	EH40/2005 WELs (United Kingdom (UK), 12/2011).  TWA: 6 mg/m³ 8 hours. Form: inhalable dust  TWA: 2.4 mg/m³ 8 hours. Form: respirable dust
Propylene Glycol	NZ HSWA 2015 (New Zealand, 11/2019).  WES-TWA: 10 mg/m³ 8 hours. Form: Particulate  WES-TWA: 150 ppm 8 hours. Form: Vapor and particulates  WES-TWA: 474 mg/m³ 8 hours. Form: Vapor and particulates

#### Appropriate engineering controls

No special ventilation requirements. Good general ventilation should be sufficient to control worker exposure to airborne contaminants. If this product contains ingredients with exposure limits, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure below any recommended or statutory limits.

Version : 5 Date of issue/Date of revision: 04, August, 2021

### Page: 4/9

## Section 8. Exposure controls/personal protection

**Environmental exposure** controls

Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

#### **Individual protection measures**

**Hygiene measures** 

: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

**Respiratory protection** 

: Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

**Hand protection** 

Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.

Eye protection

: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with

Skin protection

: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

## Section 9. Physical and chemical properties

The conditions of measurement of all properties are at standard temperature and pressure unless otherwise indicated.

#### **Appearance**

Flash point

**Physical state** : Liquid. Colour Clear.

**Odour** : Not available. : Not available. **Odour threshold** 

**Melting point/freezing point** : Not available. Boiling point, initial boiling : 100°C (212°F)

point, and boiling range

: Closed cup: 101°C (213.8°F) [Pensky-Martens Closed Cup]

: 0.09 (butyl acetate = 1) **Evaporation rate** 

**Flammability** : Not available. Lower and upper explosion : Lower: 0.6% Upper: 12.5% limit/flammability limit

: 2.3 kPa (17.5 mm Hg) Vapour pressure

Relative vapour density : 1 [Air = 1] Relative density : 1.04

: Not available. Solubility Partition coefficient: n-: Not applicable.

octanol/water

**Auto-ignition temperature** : Not available. **Decomposition temperature** : Not available.

**Viscosity** : Kinematic (40°C (104°F)): >20.5 mm²/s (>20.5 cSt)

**Aerosol product** 

Version Date of issue/Date of revision: : 5 04, August, 2021

### Page: 5/9

## Section 9. Physical and chemical properties

Type of aerosol : Not applicable. **Heat of combustion** : 1.981 kJ/g **Ignition distance** : Not applicable. **Enclosed space ignition -**: Not applicable.

Time equivalent

**Enclosed space ignition -Deflagration density** 

: Not applicable.

Flame height : Not applicable. Flame duration : Not applicable.

## Section 10. Stability and reactivity

: The product is stable. **Chemical stability** 

Possibility of hazardous

reactions

products

: Under normal conditions of storage and use, hazardous reactions will not occur.

**Conditions to avoid** : No specific data. Incompatible materials : No specific data.

**Hazardous decomposition** 

: Under normal conditions of storage and use, hazardous decomposition products

should not be produced.

## **Section 11. Toxicological information**

#### Information on likely routes of exposure

Inhalation : No known significant effects or critical hazards. : No known significant effects or critical hazards. Ingestion Skin contact : No known significant effects or critical hazards. **Eye contact** : No known significant effects or critical hazards. Symptoms related to the physical, chemical and toxicological characteristics

Inhalation : No specific data. Ingestion : No specific data. : No specific data. **Skin contact Eye contact** : No specific data.

#### Delayed and immediate effects as well as chronic effects from short and long-term exposure

#### **Acute toxicity**

Product/ingredient name	Result	Species	Dose	Exposure
Trimethylpentanediol Isobutyrate	LD50 Oral	Rat	3200 mg/kg	-
Propylene Glycol	LD50 Dermal LD50 Oral		20800 mg/kg 20 g/kg	- -

#### Irritation/Corrosion

Version

: 5

Product/ingredient name	Result	Species	Score	Exposure	Observation
Propylene Glycol	Eyes - Mild irritant	Rabbit	-	24 hours 500 mg	-
	Eyes - Mild irritant	Rabbit	-	100 mg	-
	Skin - Moderate irritant	Child	-	96 hours 30 % C	-
	Skin - Mild irritant	Human	-	168 hours 500 mg	-
	Skin - Moderate irritant	Human	-	72 hours 104 mg I	-
	Skin - Mild irritant	Woman	-	96 hours 30 %	-

## **Section 11. Toxicological information**

#### **Sensitisation**

Not available.

#### Potential chronic health effects

**General** : No known significant effects or critical hazards. Inhalation : No known significant effects or critical hazards. Ingestion : No known significant effects or critical hazards. **Skin contact** : No known significant effects or critical hazards. **Eye contact** : No known significant effects or critical hazards. Carcinogenicity : No known significant effects or critical hazards. Mutagenicity : No known significant effects or critical hazards. **Teratogenicity** : No known significant effects or critical hazards. **Developmental effects** : No known significant effects or critical hazards. **Fertility effects** : No known significant effects or critical hazards.

Chronic toxicity

Not available.

#### **Carcinogenicity**

Not available.

#### **Mutagenicity**

Not available.

#### **Teratogenicity**

Not available.

### Reproductive toxicity

Not available.

#### Specific target organ toxicity

Not available.

#### **Aspiration hazard**

Not available.

#### **Numerical measures of toxicity**

#### **Acute toxicity estimates**

Route	ATE value	
Oral	130317.24 mg/kg	

## **Section 12. Ecological information**

**Ecotoxicity**: No known significant effects or critical hazards.

#### Aquatic and terrestrial toxicity

Product/ingredient name	Result	Species	Exposure
Propylene Glycol		Daphnia - Daphnia magna Crustaceans - Ceriodaphnia dubia	48 hours 48 hours
	Acute LC50 710000 μg/l Fresh water	Fish - Pimephales promelas	96 hours

#### Persistence/degradability

Version : 5 Date of issue/Date of revision : 04, August, 2021

## **Section 12. Ecological information**

Product/ingredient name	Aquatic half-life	Photolysis	Biodegradability
Trimethylpentanediol Isobutyrate	-	-	Readily
Propylene Glycol	-	-	Readily

### **Bioaccumulative potential**

Not available.

**Mobility in soil** 

Soil/water partition coefficient (Koc)

: Not available.

Other adverse effects

: No known significant effects or critical hazards.

## Section 13. Disposal considerations

**Disposal methods** 

: The generation of waste should be avoided or minimised wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

## **Section 14. Transport information**

Regulatory information	UN number	Proper shipping name	Classes	PG*	Label	Marine Pollutant
New Zealand Class	Not regulated.	-	-	-		No.

It is recommended that each customer or recipient of this Safety Data Sheet (SDS) study it carefully and consult resources, as necessary or appropriate, to become make themselves aware of and understand the data contained in this SDS and any hazards that may be associated with the product. This information is provided in good faith and believed to be accurate as of the effective date mentioned herein. However, no warranty, express or implied, is given. The information presented here applies only to the product as shipped. The addition of any material can may change later the composition, hazards and risks of the product. Products shall should not be repackaged, modified, or tinted except as specifically instructed by the manufacturer, including but not limited to, the incorporation of products not specified by the manufacturer, or the use or addition of products in proportions not specified by the manufacturer. Regulatory requirements are subject to change and may differ between various locations and jurisdictions. The customer/buyer/user is responsible to ensure that his activities comply with all country, federal, state, provincial or local laws. The conditions for the use of the product are not under the manufacturer's control of the manufacturer; the customer/buyer/user is responsible to for determine determining the conditions necessary for the safe use of this product. The customer/buyer/user should not use the product for any purpose other than the purpose shown in the applicable section of this SDS, without first referring to the supplier and obtaining written handling instructions. Due to the proliferation of sources for information such as manufacturer-specific SDS, the manufacturer cannot be held responsible for SDSs obtained from any other source.

Date of issue/Date of revision : 04, August, 2021
