Solagard®

coastal

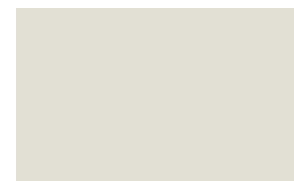

If you like the Hamptons style, stick to light, warm neutrals. For more of a coastal feel, pair whites with pops of blue or green inspired by the sea.

Traditional houses can keep their classic appeal with a neutral colour scheme, which has longevity and street appeal.

colour tip

Tonal schemes which use different shades of a similar colour create a harmonious feel.

*HERITAGE COLOURS

The Light Reflectance Value (LRV) of a colour indicates the amount of light and heat the colour will reflect. Black has an LRV of 0% and absorbs all light and heat, and surfaces may become hot causing thermal movement. White has an LRV of 100% and reflects all light and helps keep buildings cool. All colours lie in between.
